

*With 2016 now in the logbook, we're looking forward to making 2017 another great year. Our New Year's resolution? To thank our customers for their ongoing support of Elecraft with the special offers detailed below.*

*Last year we introduced the KX2, a nine-band, 10 watt, multi-mode rig you can hold in the palm of your hand. Thanks to the KX2, more hams are now feeling the call of the wild. But on those long winter nights at home, you'll find many of our customers warming up the airwaves with our world-class K3S transceiver and its 500 watt afterburner, the KPA500. Overall, the K3S offers the best receive dynamic range performance of any rig available, yet it's affordably priced and compact enough to fit on any desktop.*

*We'd love to hear from you! Let us know if you have new product ideas, or a suggested improvement, or if you need assistance getting your station up and running. As part of the growing, world-wide Elecraft community, we're here to help.*

## KPA500/KAT500 Power Combo

**It's now even easier to use non-Elecraft radios with the KPA500 amplifier and and KAT500 auto-tuner!**

We've heard from many non-Elecraft radio owners that they would love to add more punch to their signal with Elecraft's KPA500 and KAT500, taking their transceiver to a full 500 watts out on 160-6 m. This works great, and we've made it even easier to get set up and rolling.

In addition to working seamlessly with the K3 and K3S, the DXpedition-proven KPA500 and KAT500 combo is fully compatible with most recent Icom, Yaesu, Kenwood and Flex transceivers. We've taken the guesswork out of operating by providing cabling and instructions for some of the most popular rigs in shacks today.

*To make this even better, as part of our February specials, we're offering \$100 off on the KPA500/KAT500 combo, or individually \$50 off of the KPA500 and \$25 off of the KAT500 - all with free continental U.S. ground shipping.*

## New K3 to K3S Migration Service

**Save \$\$ - Let us build a new K3S/100 for you using options from your original K3.**

K3 owners can now have their cake and eat it, too! Our new K3 to K3S/100-F Migration Service allows you to migrate most of the options and filters you installed in your K3 into a new K3S-F at a low service price of \$199.95. This service also includes updating your options to current revisions when moving them to the K3S, testing and certifying your original K3/100 so you can keep it, sell it or give it to a child or grandchild...our next generation of amateur radio operators. Plus you can use our February Special for a \$50 savings on your new K3S/100 - including free U.S. ground shipping.

Many K3 Options will work with the K3S/100-F. For some operators, however, this may seem challenging.

Let us save you money and take the guess work out of moving your investment into the K3S/100-F with our new Migration Service. Our K3S-F Migration Service is a low cost way to gain access to new K3S features while preserving your investment in your original Elecraft K3 options.

While your K3S/100-F is at the factory, we can add any other new options you might like to purchase. We'll install them for no additional charge.

# K6UDA 5,000 Subscriber Contest

## And the Winners of a KX2 are...

(Yes, there's more than one!)

**Jerry Aaronson**  
WA7YQA

**Steve Parks**  
KF5RY

**Nathan Henry**  
KE8EAZ

### Thank you to all who entered the K6UDA 5,000 Contest!

Picking just one winner was tough for the Elecraft judges. All written and video entries tugged at our hearts, made us laugh, and made us proud that so many of you would use our radios to teach children to reach out to the world, introduce amateur radio to kids' clubs, disaster preparedness and helping victims of disasters, and to have fun.

### Congratulations Winners from all of us at Elecraft!

February Specials Free UPS Ground Shipping within the Continental US only. Discounts not retroactive for orders placed prior to receiving the offer. Not valid in combination with any other discounts on these items. **Discounts and Free Shipping will appear on your final invoice that will be emailed to you.** February Specials are good through February 28, 2017.
